

## Throwback Sunday

### Wooden Christmas Tag

Nicole Wright, *Calgary, Alberta*

SUPPLIES: Ranger Dina Wakley Media Black and White Gesso, Dynasty ¼" brush, Sookwang double-sided tape, unknown round wood piece and embellishments.

## WOODEN CHRISTMAS TAG OR ORNAMENT

1. On a wooden piece apply strips of double-sided tape.

2. Apply Ranger Dina Wakley Media Black Gesso over the entire surface and let dry

3. Once paint is dry, remove the tape. There will be some bleed through, and that is great. It creates a more natural tree.

4. Create the bark lines with a chisel edge paint brush or an old key card.

5. Create branches and highlights with Dina Wakley Media White Gesso.

6. Once the Gesso has dried, embellish the little tag however you like!
