- Cardstock (Dk Teal)- two 4x6
- Cardstock (Black)- three 4x6, one 4 x 4 1/2 - this could be a photo
- Cardstock (Pink)- two 3 1/2 x 5 1/2 - this could be photos
- Cardstock (Off White)- two 3 1/2 x 5 1/2 - this could be photos

Other: Pop Dots or Foam Tape, Chalk Ink, Journaling Pens, Stickers for sparkle, twine, any cut apart cards or paper, stickers and any other embellishments of your choice.

First Step: Print out your Design Printable on 65lb white cardstock. I used 8.5x11 so it fits nicely in my printer tray. Refer to photos and creatively cut out your pieces from your Printable.

Second Step: Build Page 1 as shown. Attach base pieces first and leave the top edge of the plaid piece open to create a pocket for your tag. I used pop dots under the top of the tag, the pink flag, and large black camera, heart, and pen. Create banner by attaching banner flags to twine with hot glue. Then attach to the base page of the layout with pop dots under each banner flag. Tie off knots in twine tails and trim off excess.

Third Step: Build Page 2 as shown. Attach base pieces first and make sure to align them with the pieces on Page 1. Use pop dots to attach the pink flag, pen, book stack, brown heart, and remember word.

Fourth Step: Referring to photos, add twine bows and accents as shown with hot glue. Attach buttons on pink flags with hot glue.

Fifth Step: Add any penwork you desire. You could also add stickles for sparkle.

Add your photos, journaling and ENJOY your memories!
